APPLICANT'S COMMENTS ON EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

In the Office Action dated June 4, 2003, and the Notice of Allowance dated 10/24/2003, the Examiner summarized features of the claims that are allowable over the prior art. To the extent that these comments regarding allowable subject matter, wherever they are found, agree with the language of the individual allowed claims, the applicants agree with the Examiner.

The applicants would also like to note that there are several independent claims allowed in this case, as well as various dependent claims that depend directly or indirectly from the allowed independent claims. It is a well known tenet of patent law that patent claims are read as a whole, rather than phrase by phrase or element by element. Therefore, the scope of the allowed claims is not necessarily limited to only the claim elements that the Examiner reproduced, but rather, to the language of the claims themselves, in their entirety
